Subject: Diamond Alkali: Posting FAQs on ourPassaic.org

I was thinking of having CDM add the following blurb on ourPassaic.org, under Project News, to introduce the FAQs. Let me know if you have any comments.

Project News:

EPA's Frequently Asked Questions about the Sediment Processing Facility or Facilities [October 2021]

The cleanup plans for the lower 8.3 miles and upper 9 miles of the Passaic River call for dredging contaminated sediments from the river, which need to be processed at a sediment treatment facility or facilities. This fact sheet [[click here](#)] answers frequently asked questions such as what a sediment treatment facility is, where it might be located, and how community health and safety will be protected.

Shereen: Any estimate of when the FAQs will be finished so that we can post them and distribute them?
